

Blue Line Terms & Conditions

All details of the Blue Line such as drawings, written specifications, warranty guidelines, electrical specifications, shipping weight, etc, are available on our website and on AutoQuotes. Our Terms and Conditions of Sale are:

- **Pricing:** Blue Line Pricing is subject to change with a 30 Day notice
- **Refrigeration:** Refrigeration is designed for normal holding temperatures only - at either 35 degrees for coolers or -10 degrees for freezers at a 95 degree ambient temperature. Product load, location and usage can affect refrigeration sizing. If you feel this is insufficient for your specific use, please advise your inside sales associate.
- **Ramps:** Building inspectors in certain municipalities are now requiring ramps for walk-ins with step up floors (not recessed). Exterior ramps are optional on the Blue Line, please add if needed. Check local codes before ordering.
- **Terms and Taxes:** Terms are subject to credit approval. Any balances due after the required payment date will accrue interest at 1.5% per month. This price does not include state, federal or local taxes which, if applicable, purchaser agrees to pay.
- **Local Codes:** Arctic will not be responsible for any local codes or municipality laws that may affect the approval at the job site by the permitting authority.
- **Freight:** Blue Line walk-ins include Free Shipping to the 48 contiguous United States as long as the invoice is paid within terms. Freight charges will be shown on all Blue Line invoices -- if payment is received within terms, the freight charges will not apply.
- **Claims:** When Arctic coordinates shipping, the customer is responsible for evaluating the product at time of delivery to ensure that there is no damage. If the customer verifies damage, they are responsible to note on the carriers bill of lading before acceptance AND to notify Arctic immediately. If a shipment is relocated before it is inspected, no claim can be filed.
- **Restocking Policy:** Blue Line orders which are cancelled after the order has left Arctic's warehouse will be subject to a 25% restocking fee and any freight charges incurred.
- **Warranty:** All Arctic walk-in coolers, freezers and refrigeration equipment must be installed by a certified and licensed contractor with walk-in and/or refrigeration installation experience. If not, the product warranty will be void. See warranty certificates for complete coverage.
