

Wire Shelving Assembly Instructions

Free Standing Unit

Note: Every Eighth groove is doubled for easy assembly.

1. Determine the position of your lowest shelf . At the lowest groove where a shelf will be located. snap one half of a plastic shelf support (with the wider part down) on the post. Snap on the remaining half of the support and slide up or down until secured into the groove. Repeat for other posts.
2. Insert each post from the **BOTTOM** of the shelf until the plastic shelf supports fit firmly inside the shelves.
3. After the last post is inserted, return the unit to the upright position and gently tap the shelf down until completely secured.
4. Continue to affix plastic shelf supports and secure shelves as needed.

IMPORTANT: Manufacturer is not responsible for damage and/or Injury caused by improper assembly, misuse or extended use past the life span of the product, or unbalanced loading of product. It is the user's responsibility to understand the product's use in each application.
