

warewashing: plaque-a-rack™ system

Carlisle's Plaque-A-Rack™ System is the proven standard in custom rack labeling. And, with our color-coded racks (shown on pages 209-212) Carlisle offers the widest combination of identification options in the industry. You can identify your racks by contents, silhouette, name, location (usage/storage), and color code for a totally customized system. Order custom designed plaques to meet your own unique needs. The highly visible plaques fit up to three across on both bases and extenders for complete versatility. Plaques can be easily added, removed, or changed as needed. Plaque-A-Rack™ is also the only rack identification system that will allow you to easily put identifiers in multiple languages on the same rack. Sturdy reusable plaques are made from a high-impact plastic and won't come off during the normal wear and tear of daily usage – offering a permanent identification system for the life of your racks.
