

# "Custom" Char-Broiler Ranges

**Model F3226-18-1.5RB**  
shown with optional casters  
& extra racks

**Model F330-12-1RB**  
shown with optional casters

## If your menu calls for char-broiling...

**Y**ou can now incorporate some or all of your char-broiler into a range top, saving critical floor space. Char tops are available in 6" or 12" increments. When using 6" increments, a 6" incremental griddle must also be used. For example, combine an 18" char-broiler with either an 18" or 30" griddle. Char-broiler burners are rated at 25,000 BTUH on 12" incremental sizes, 40,000 and 80,000 total BTU's respectfully on 18" and 30" char-broiler sections. Griddle burners are rated at 20,000 BTUH on 12" incremental sizes, 36,000 and 72,000 total BTU's respectfully on 18" and 30" griddle sections. Open top burners are cast iron featuring a large 7" star pattern for excellent efficiency. Open burner top grates are 12" x 12" cast iron with a cast in bowl to direct heat to the cooking surface. 3 oven widths to choose; 31½", 26½" and 19½".
