

K-12 School Packages

Ask your dealer about Convotherm's K-12 Packages

Benefits of adding Convotherm to your school foodservice program

vs Convection, Steamer, and Deep Fryer

- Up to 40% faster than convection ovens¹
- Save up to 2-3 labor hours per day² – no need to slack out food or manually clean the combi
- Baked goods are more consistently browned, have greater yield, and have longer shelf life than convection ovens^{1,2}
- Crispy oven-ready fried products drive student participation while reducing food costs due to longer hold times vs deep fried products^{1,2}
- Saves energy – 50% less energy than steamers and 40% less energy than convection ovens³
- Virtually eliminates the need for added fat without sacrificing taste
- Reduces hood space up to 30% by replacing multiple pieces of equipment with Convotherm

vs Competitive combis

- Convotherm combi ovens come preloaded with over **200** common K12 menu items. Save your menu items in the Favorites section to guarantee that even unskilled labor will produce perfect results
- Convotherm chef assistance to fine tune your menu items
- Convotherm electric 6- and 10- shelf, half- and full-size models are **UL Listed ventless** for use without any hood which saves equipment costs and enables installation in historically challenging locations
- Convotherm ovens feature the unique **Advanced Closed System**—a sealed cooking cavity that enhances water and energy efficiency while providing precise control over the cooking climate and process
- The Convotherm **Disappearing Door comes standard** on all school packages. It opens and then slides neatly beside the oven, making it easier and safer to load and unload while keeping pathways clear

All packages include:

- One or two Convotherm combi-ovens (as indicated in each package)
- Electric 6 and 10 shelf units are UL® Listed Ventless – no hood required⁴
- 3 year warranty - Parts and Labor
- easyTouch® controls – even unskilled labor can produce perfect results
- Disappearing Door (DD-TT) – minimizes injuries and saves space
- U.S. developed cookbook with over 200 common K12 menu items
- Wire Racks^{^^}
- Fry baskets^{^^}
- Equipment stand or stacking kit for tabletop models^{^^}
- Cleaning system along with cleaning chemicals and hoses (2.5 gal ea. detergent and conditioner) (CSTART)
- Software package for HACCP and cooking profile management (CONVOLINK)
- Culinary Support to assist with fine tuning your specific menu items
- Free equipment Start Up by an Authorized Servicer
- Free Freight

Convotherm offers water filtration products, and installation packages, which can be selected in AutoQuotes.

Note: Installation Programs and Kits are non-discountable, and are priced net.
