

## Base stand filter systems

### Water filter systems factory installed in Symphony Plus™ base stands

- systems are pre-plumbed and ready for external connections
- convenient filter bracket mounting system allows easy access to filter cartridges
- low maintenance, stainless steel exterior and interior offer good looks and long service life
- three filtration systems available, all of which remove particles down to 0.5 micron to reduce scale build-up and improve machine performance
  - standard capacity carbon filter removes chlorine, off tastes and odors
  - high capacity carbon filter removes chlorine, off tastes and odors while providing increased time between filter changes
  - high capacity carbonless filter provides filtration and increased time between filter changes, while allowing chlorine and chloramines from municipal water supplies to pass through, helping to inhibit bacteria growth
