

# Lincoln®

## INNOVATE. *ELEVATE.*

### The All-New Lincoln Tablet System

#### Reduce Your Environmental Footprint:

Minimize the waste of non-degradable cases of bottles. Each kit is equal to 10 - 32 oz bottles of liquid.

**Cut Total Freight Costs:** Improve your overhead by swapping out large, heavy cases of liquid for a more compact, lightweight, and cost-effective alternative.

**Maximize Kitchen Storage:** The use of a concentrated tablet system frees up valuable space in busy kitchens by eliminating the need for large cases of diluted liquids.

**Easy-To-Use:** Pre-measured tablets take the guesswork out of needing careful measurements. Simply drop the required number of tablets into the bottle and you're ready to go!

#### TO ORDER:

Scan the QR code or contact your local distributor.
