## melamine care guides

### Washing

Delfin melamine is commercial dishwasher safe.

Do not use harsh or abrasive cleaners, steel wool, or metal pot scouring pads to remove food or stains. For best results, use only non-abrasive scrubbing pads or plastic bristle scrubbers to remove dried food. Do not use chlorine bleach or chlorine-based sanitizing solutions when caring for melamine products. Only use sanitizers developed for commercial use. A qualified chemical specialist should recommend the proper cleaning solution to use with melamine products.

### Temperature

Delfin melamine products can withstand heat up to 248°F (120°C). Do not use in an oven or microwave.

### Condition

Use of serrated knives is not recommended on melamine products. Proper care and maintenance will ensure the life span of your Delfin melamine products.
