

# ConsERVER® XL-E-FL

## CHEMICAL SANITIZING DOOR-TYPE DISHWASHER

- Front loading door-type is great for applications with limited space
- Internal sump design
- Fill and Dump design, fresh water every cycle
- Electronic timer
- Delime (manual) switch for easy removal of hard water deposits
- Waste accumulator with removable scrap screen
- Built-in chemical pumps and priming switches
- Self-draining stainless steel pump eliminates soil and detergent carryover between wash and rinse cycles
- Low chemical indicator lights
- Constructed of durable stainless steel
- Powerful 1hp stainless steel wash pump
