

# DynaStar<sup>®</sup> VER

## HIGH TEMPERATURE SANITIZING DOOR-TYPE WITH VENTLESS & ENERGY RECOVERY

- Ventless: Does not require a hood
- Unique two-pass Energy Recovery System collects the water vapor inside the machine and uses it to preheat the incoming rinse water. Reduces energy consumption and eliminates the need for a ventilation hood.
- Door interlock keeps door locked during total cycle
- Built-in booster heater with exclusive Sani-Sure<sup>™</sup> final rinse system ensures proper rinse temperature
- Pumped rinse for consistent rinse pressure
- Adjustable rinse system - choose Econo or Turbo to accommodate your soil level
- Less than 63" overall height - lowest height of all ventless door-type units
- Operates on a single cold water connection, making installation easy
- Triple Wash Arm provides consistent, reliable performance

# DynaStar® WITH VENTLESS & ENERGY RECOVERY

## Cleanability

Our triple wash arm is engineered to focus more water on the dishes for superior cleaning performance. Our adjustable rinse system keeps you in control - choose Econo or Turbo based on the soil level of each load.

## Operation

Easy-to-read digital controls, a full wrap tubular handle, and a door-activated drain closure make operation of the DynaStar VER a breeze.

## Serviceability

Ease of serviceability is important to Jackson, and with that in mind, the DynaStar VER was designed to utilize common Jackson parts, as well as making service access easy. All service parts can be accessed while the unit is in place - no need to pull it from the wall or disconnect tables.
