

RANGE BUYING GUIDE

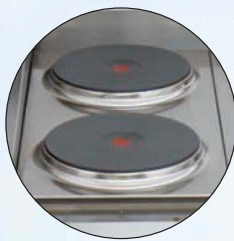

RANGE TOP OPTIONS

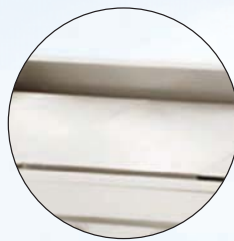

INDUCTION

Induction Top is exclusive to Lang! This Range Top is the definition of efficiency and safety. 8" diameter 2.6kW induction burners beneath a durable 6mm tempered glass top provide up to 95% cooking efficiency and instant heat to induction pots and pans

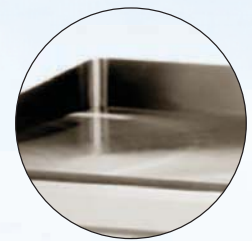

FRENCH TOP

The French Top features independently controlled, high power 3.6kW elements inside a sealed 8" diameter casing

HOT TOP

Hot Top features 12" wide x 24" deep x 3/4" thick cast iron hot plate grates with a milled surface. These heavy duty plates are each controlled by one 850°F -range thermostat

GRIDDLE TOP

Griddle plates may be 1/2" or 1" thick, depending on model, and between 24" and 60" wide, depending on range size. Griddles have a 4" splash and are controlled by one 450°F thermostat every 12"
