Riverstone

Inspired by water-smoothed stones, only the Riverstone collection offers an artisanal style of organic stoneware in three colors. The chef-approved clean plating surfaces spark presentation inspiration guests can't resist. Durable, heavyweight melamine bodies outperform porcelain 3:1, creating a wealth of savings for operations.

Reasons to Love:

- NEW ramekin with organic shape available in all three colors
- Authentic hand-thrown stoneware look
- Three food-friendly colors including classic white and trendy cement gray and charcoal
- Beautiful organic shapes
- Heavyweight construction blends the benefits of the heft of porcelain with the cost-saving durability of melamine
- Fully stocked and ready for immediate shipping and sampling

Everything You Need for Tabletop Guest Service

From sauce cups to entrée plates, bowls and a platter, you can create head-turning tablescapes for your guests. Mix and match all three colors or focus in on your favorite single-color option: The choice is yours!

Who Should Serve on Riverstone?

The Riverstone collection has broad appeal, complementing a range of décor styles and menu options. Ideal service locales for this fashionable line include:

- Casual and fast casual restaurants
- Hotel dining
- Patio, outdoor and rooftop dining
- Employee dining
- College and university dining
- Business and industry dining

Who Should NOT Serve on Riverstone?

Like all melamine, Riverstone has a few areas where porcelain naturally performs better. In these cases, we recommend using either a mix of porcelain and melamine or porcelain only.

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved

See the **Corona Moon, Pluto, Elegance and Gotas** collections for excellent alternatives in porcelain.
